

## Beall Scholarship Suggested Programs

While selecting one of these study abroad programs will not guarantee selection for the Beall Study Abroad Scholarship, these programs all contain a significant experiential learning component in line with the donors' desire to see students benefit the members of their host community and increase the student's engagement with the foreign culture.

Please review the [other selection criteria](#) to ensure eligibility to apply for the Beall Scholarship and/or talk with the Experiential Learning director prior to applying to a program.

This list is not an exhaustive list of programs. Please contact the director for information on other possibilities.
